

 **RACE**®

Are We So Different?

A Project of American Anthropological Association
Funded by Ford Foundation & National Science Foundation

Visit the **Race: Are We So Different?** exhibition **January 28 through April 29, 2012** at the Science Museum of Virginia to explore the issues of Race and racism in the United States. This thought-provoking exhibit addresses these highly personal topics from three different perspectives to tell a compelling story.

SCIENCE

Discover that human beings are more alike than any other living species, and no one gene or set of genes can support the idea of Race.

HISTORY

Learn the role of economic interests, popular culture, science and politics in shaping our concept of Race.

EVERYDAY

Explore the personal experiences of Race in our schools, neighborhoods, health care systems, sports and entertainment industries, as Race exists socially and culturally.

2500 West Broad Street, Richmond, Virginia 804.864.1400 www.smv.org
